

DANIEL SANTOYO PANCHE

BIM Coordinator | BIM Modeler | Architectural Designer (BIM)

Bogotá, Colombia (Remote: US / Europe) • +57 321 452 7399 • dsantoyop@gmail.com • linkedin.com/in/danielsantoyodev

PROFESSIONAL SUMMARY

Architect with ~7 years of experience in BIM modeling and coordination for residential, commercial, and civil projects. Skilled in Revit and Navisworks, supporting projects from design development through construction. Led BIM adoption in a traditionally non-BIM organization, wrote BIM workflow protocols to safeguard model quality, and used coordinated models to drive interdisciplinary coordination, quantity takeoffs, and budgets. Passionate about efficient BIM workflows; seeking remote BIM Coordinator or BIM Modeler roles with US or European teams.

PROFESSIONAL EXPERIENCE

Architect Designer | Marval Constructora

Dec 2024 – Present

Colombia

- Develop urban and architectural designs for housing products ranging from VIS (social housing) through stratum 5.
- Follow up on curatorship building-permit processes (trámites de curaduría).
- Model structural designs in Revit to coordinate them with architectural designs.
- Lead technical coordination and run interdisciplinary committees based on BIM models.
- Produce urban and architectural details; coordinate, supervise, and review drawing production.
- Review and coordinate the development of horizontal property regulations (reglamentos de propiedad horizontal).

Key achievements:

- Reduced design times by ~10% from concept to delivery by adopting BIM design protocols.
- Improved the architectural design of low-rotation (slow-selling) housing products.
- Implemented an AI bot to speed up searching for project information.

Architect Designer | Construcciones Crear

Jul 2021 – Jun 2024

Colombia

- Led the rollout of BIM methodology across design and construction in a traditionally non-BIM organization.
- Authored BIM workflow protocols that standardized modeling practices and ensured model quality.
- Modeled structural designs in Revit and coordinated them with architectural models, reducing design and clash-coordination time with the structural discipline.
- Designed residential buildings in compliance with applicable building codes and regulations.
- Led technical coordination across construction disciplines using BIM models as the single source of information.
- Prepared project budgets from quantity takeoffs extracted from Revit (RVT) models.
- Produced renders and audiovisual content for marketing.

Site Resident (Residente de Obra) | Obracol S.A.S Constructora

Apr 2019 – Jul 2021

Colombia

- Built BIM models of warehouses to extract quantities and support on-site coordination.
- Scheduled activities by resource; prepared budgets, unit price analyses (APUs), cash flows, and management reports.
- Coordinated staff and machinery for infrastructure maintenance activities, keeping logistics on track.
- Managed purchase orders, invoicing, material quotes, and materials supply for maintenance works.
- Improved office, production, and warehouse infrastructure and raised maintenance execution-time indicators.

EDUCATION & CERTIFICATIONS

Architect (Professional Degree) | Universidad Nacional de Colombia, Bogotá

2019

Diploma: BIM Coordinator | NASKA

2022

Diploma: Building Information Modeling (BIM) | Pontificia Universidad Javeriana

2021

Complementary: Costs & Budgets for Buildings (SENA); Construction Scheduling with Microsoft Project

Professional License (Colombia): Matrícula Profesional A24632019

SKILLS

BIM & Architecture: Revit, Navisworks, AutoCAD, BIM coordination, clash detection, quantity takeoffs, BIM protocols

Visualization & Media: Adobe Photoshop, Premiere Pro, After Effects, renders

Project Management: Microsoft Project, Excel (basic), budgeting, unit price analysis, scheduling, cash flow

Languages: Spanish (native), English (professional, B2)
